Giulia Urlando, designer

.....

lagranja is a design studio founded in May 2002 by young creatives working mainly in interior design, exhibitions and industrial design projects in Spain and Italy. The studio constantly collaborates with other creatives (graphic designers and new media, photographers and video makers, architects) who join us to complete each project. Since 2001 we combine our professional activity with teaching at the following schools of design: ELISAVA, EINA, Barcelona IED, Istituto Universitario di Architettura di Venezia IUAV and F A B R I C A the creative center of the Benetton group.
